

**Measure 2 (Initial and Advanced): Satisfaction of employers and stakeholder involvement.**

(a) Data provided should be collected on employers' satisfaction with program completers.

The MA DESE administers New Teacher Employer Survey to ask recent employers to evaluate Lesley graduates. The target population for this survey are principals who have employed a recent graduate (within one year of graduation). We track the results for this survey question annually, but The MA DESE didn't administer the cohort of 2019-2020 due to the Covid related circumstances but will administer the cohort of 2020-2021 after this report is due. Instead, we present the latest survey results for Supervising Practitioners and the trend of employment rates as a proxy measure of ongoing satisfaction of employers for Lesley education programs' graduates.
